

HIV in Europe Newsletter

Issue No. 25 - October 2016

The HepHIV 2017 Confernce

Abstract submissions are invited for the [HepHIV 2017 Conference in Malta](#). The deadline for submitting an abstract is 17 October. Read more about the abstract categories and submit your abstract [here](#).

Scholarship applications are also accepted online. A scholarship includes full financial support for participating in the conference, including return travel and accommodation. Submit your application by 17 October [here](#).

European Testing Week

The European Testing Week takes place this year from **18-25 November 2016**. The [website](#) has been updated and new materials are available [here](#).

Keep an eye on the website for new updates and materials and help us spread the word of the 2016 European Testing Week. So far 432 organisations all across Europe have signed up. See them all [here](#) and sign up [here](#).

OptTEST by HiE

The [OptTEST by HiE](#) project has entered its final year and more and more results are available from the WPs. A new searchable database developed by OptTEST partner GNP+ and consultant Lisa Power shows the most common legal and regulatory barriers to HIV testing, linkage to care and treatment access across Europe and in each individual European country. The database can be accessed [here](#).

Ongoing projects

You can always read more about HIV in Europe and our ongoing projects on our website.

Indicator condition guided HIV testing

want to know more about indicator condition guided HIV testing? The guidance in short is now available in multiple languages on our website. Check them all out [here](#).

Get Social With us!

The HIV in Europe Initiative is on social media! Follow us on [Twitter](#) and give us a like on [Facebook](#)!

On these channels we will also soon be posting more information about the #HepHIV2017 conference, stay tuned.

Follow Us On:  

Linkage to care country meetings are being planned in Greece, Portugal and Poland during the fall of 2016. The meetings will bring together national stakeholders and international experts to discuss national linkage to care data and identify specific local challenges.
